PREMIUM FOAM WASH FIBER CLOTH

Microfiber cloth has non-abrasive properties which cleans all kind of surfaces with an electrostatic nature. This special construction of Fine Fiber which is 300 times smaller than conventional terry cloth fiber, forces thousands of fiber points deep into the surface line, with minimum effort. These fiber points break down the heavy dirt and cleans with high gloss.

BENEFITS

- Revolutionary cleaning power, cuts cleaning time by half because micro fiber is more powerful than conventional cloth.
- No need for expensive detergents, chemicals or polishes.
- Extra ordinary soft touch with luxurious, miraculous cleaning.
- Result in gleaming smear free finish. Excellent for ceramics, glass and mirrors, stainless steel, worktops, cars and many more applications.

FEATURES

- High Absorption.
- Quick Cleaning.
- Washable & Reusable.
- No spray or polish.
